Hickmans Sierra Club Inc v Tyson Foods Inc.pdf

At the meeting of the Maricopa County LEPC yesterday, July 26, 2017, a staff person of the Maricopa County Department of Emergency Management, Allen Young, claimed he had called EPA Region 9 and spoken with a staff person whom he has refused to identify, despite repeated requests. He claimed that this alleged EPA staff person told him that continuous release reports filed under CERCLA exempt the facility from filing the written follow up reports required by EPCRA Section 304. I know that to be inaccurate, and I have attached the court decision (Sierra Club vs Tyson Foods) that ruled that way.

I hate to ask, as I don't believe Mr. Young is truthful about this alleged contact, but could you ask the appropriate staff at EPA Region 9 if they spoke with Mr. Young the morning of July 26, 2017, and if they did, was this what the staff person stated?

Thanks,

Steve Brittle
